How did you become involved? Made the choice to. The 3 C's of life are choices, chances and changes. You must make a choice to take a chance or your life will never change.

How can someone become involved? Join at least one professional or civic organization and commit. Going to meetings and eating sandwiches doesn't make you involved any more than standing in a garage makes you a car.

What have you learned/achieved through the experience? I've learned that if I worked dutifully for eight hours per day as a young lawyer that eventually I'd get to be the boss and work 14 hours a day. When opportunity knocks, some people are in the backyard looking for four-leaf clovers. True opportunity is only created through choice and hard work. Get involved and choose your destiny.

What was the last book you read or are reading? "What They Teach You at Harvard Business School" by Phillip Broughton and "What They Don't Teach You at Harvard Business School" by Mark McCormack. Having conjunctively read those two books, I should now possess the sum total of all human knowledge.
